EDUCATION

University of Zululand

Bachelor of Science: 2012 - 2014, Computer Science and Mathematics,

University of the Witwatersrand

Bachelor of Science(Honours), Passed with Distinction: 2016, Computer Science,

University of the Witwatersrand

Master of Science: 2017, Computer Science: Computer Vision, Machine Learning, Full Time, Expected graduation: 2019

UNDER-GRADUATE PROJECTS

Project One - 2013 (Semester Project under Software Engineering: Group):

SmartDrive has been designed to monitor the usage of the mobile phone while driving a car. SmartDrive blocks incoming SMSs and calls whilst the user is driving. SmartDrive has been built for Android devices. The system has been developed for android devices and has been written using Android SDK. I was the project leader, we delivered the system on time with minimal bugs.

Project Two - 2014 (Semester Project: Individual):

Online (Indigenous) Health Forum , name of my project has been developed to bridge the gap of languages by allow people using different to exchange ideas using the forum as if they were all writing the same language . This forum has been develop using the Liferay platform. In this project, my aim was to use Liferay framework to dynamically get the words and sentences from one side of the communication and translate it to the corresponding language on the other side. Java was mainly used with the Translator API from Microsoft.

HONOURS PROJECT

Project Three - 2016: Developed an Automated Parking Spot Detection using some Computer Vision and Machine Learning techniques.

I have used opencv with Python to predict the occupancy of some parking spot given a parking spot. I trained my dataset using Nvidia Digits under Caffe.

MASTERS PROJECT

Project Three - 2017: Improving the Honours project for automatic detection and comparison between Support Vector Machines and Convolutional Neural Networks.

COMPUTER SKILLS

Languages: Python(Preferred), C++(Basic), Java(Basic), SQL, L^AT_EX, Shell (Bash).

Web Development: HTML, CSS, PHP, Apache.

Applications: Eclipse, Visual Studio, Git, VirtualBox, MySQL, Adobe Dreamweaver, Liferay, Android Studio, Nvidia DiGITS, Caffe (Framework), Scikit-learn, PBS (Cluster Computing).

Operating Systems: Linux (Preferred), Windows.

EXPERIENCE	Tutor 2013 Java Programming Introductory to Computing	Department of Computer Science University of Zululand
	Tutor 2014 Java Programming Introductory to Computing	Department of Computer Science University of Zululand
AWARDS	<ul style="list-style-type: none"> • 2012 Scholarship (Rector's fund), University of Zululand • 2013 2nd Best Software Engineering group Project Leader • 2014 Best 3rd year Computer Science student in Faculty of Science in the University of Zululand • 2016 CSIR - DST Scholarship, no work-back commitment • 2016 ABSA - Most Commercially Viable Project - Computer Science • 2017 CSIR - DST Inter-Programme Bursary, no work-back commitment Award 	
LANGUAGES	<ul style="list-style-type: none"> • French Native (Written and spoken) • English Fluent (Written and spoken) 	
REFERENCES	<ol style="list-style-type: none"> 1.
